OUT NOW ON STEAM, SUPER MEGA SPACE BLASTER SPECIAL

-Content-

Ste Wilson of Bare Knuckle Development is excited to announce that his feature-packed retro space shooter solo project, Super Mega Space Blaster Special, is now available for purchase on Steam for 0.99 USD.

Warm up your thumbs for some frantic retro space blasting. Get that nostalgic feeling of 'Just one more go!' Grab a mate, plug in your joypads and remember to blink as you blast your way to the boss. There's nothing quite as satisfying as beating your last score or blasting your buddies into space dust. This easy to play hard to master space blaster offers three original game modes to keep you and friends coming back for more. For less than a dollar you couldn't ask for more 'pew pew' for your buck!

About Ste Wilson:

Ste is a game developer living in Manchester, United Kingdom. He has worked on a number of indie games including Maybot Run which was featured on TV on the BBC. After setting himself the challenge of creating a game for Steam in four weeks he created Super Mega Space Blaster Special, his first solo release. He is currently working on other larger titles for Bare Knuckle Development, including The Flawless: Art's Tale, a metroidvania action-RPG for PS4, Switch, and Steam.

About Bare Knuckle Development:

Bare Knuckle Development is a small indie (two person) game studio based in Manchester in the United Kingdom. They have worked on a number of projects for/with other studios and have just released their first solo game on Steam called Super Mega Space Blaster Special. They will then return to developing The Flawless: Art's Tale, a metroidvania hack 'n' shoot action-RPG for PS4, Nintendo Switch, and Steam.
