Like the console versions the Steam version will offer an exclusive space blaster. The game will support a lot of different controllers including DUALSHOCK®4, Nintendo Switch™ Pro controllers, and Xbox One/360 controllers each with button image layouts in-game and optional vibration. The game also supports several USB retro controllers to help players get that nostalgic feeling and has a keyboard remapping feature for keyboard and mouse players. Steam Cloud save is included allowing players to keep their saves across different systems and operating systems. Steam Leaderboards are used to let players compete for high-score domination in 4 of the 5 game modes. Steam's 'Remote Play Together' feature is implemented giving players the opportunity to play with other Steam players in the 3 co-op game modes over the internet.

**More About Super Mega Space Blaster Special Turbo:**

A modern take on the retro arcade shoot 'em up (shmup) where the player must remotely pilot space blasters to save humanity from extinction. Super Mega Space Blaster Special Turbo is an addictive, fast-paced, easy to pick-up hard to master space blaster with bullet hell elements, loads of unlockables, and leaderboards to climb. The 'Turbo' edition of Super Mega Space Blaster Special is the definitive edition giving you more ships, more game modes, more unlockables, more challenges, and more space blasting fun than ever before.

**About Bare Knuckle Development:**

Bare Knuckle Development is a small indie game studio based in Greater Manchester in the United Kingdom. After releasing their first title, Super Mega Space Blaster Special, on Steam to a string of good reviews they are in the process of releasing the much bigger 'Turbo Edition' on consoles, PC, and Mac. Once released they will then return to developing The Flawless: Art's Tale, a metroidvania hack 'n' shoot action-RPG for Nintendo Switch™, PS4™, and Steam(Win/Lin/Mac).
