SUPER MEGA SPACE BLASTER SPECIAL TURBO IS COMING TO XBOX ONE IN FEBRUARY

The console trinity is complete – Super Mega Space Blaster Special Turbo is set to launch on Xbox One on 12th February 2020.

Greater Manchester, United Kingdom – 16th January 2020: Bare Knuckle Development are pleased to inform you that their punishingly difficult retro space blaster, Super Mega Space Blaster Special Turbo, will launch for digital download on Xbox One on 12th February 2020. The game is already out on Nintendo Switch™, and PlayStation®4 and the coming release on Xbox One will complete the major console trinity. This accomplishment is further compounded with you take into account that the game was created from the ground up by a single developer namely Bare Knuckle Development's very own Ste Wilson.

“Designing and coding the game, recording the music, creating the artwork, porting the game to 4 different platforms, and then marketing it has been a ridiculous amount of work powered by extreme coffee drinking” said Ste when asked about his journey as a solo developer. *“Even after playing over 2000 hours across all platforms I still enjoy the punishingly hard retro gameplay, I just hope players will give it a chance.”*

The Xbox One version of Super Mega Space Blaster Special Turbo launches with the usual extensive feature list. 5 Game modes, 2-player local co-op/competitive play, 15 space blasters, an Xbox exclusive space blaster, 40+ challenges, online leaderboards, and an 80's inspired synth-pop soundtrack. The game also makes use of some of the console's unique features. On Xbox One the game is Xbox One X enhanced and will play at 4K with 4x anti aliasing on an Xbox One X. The game supports 36 Xbox Live Achievements with a total Gamerscore of 1000 and supports Xbox One controller vibration.
